EXECUTIVE SUMMARY

GenD deepfake detection model identified this frame as GenD Deepfake with 74.4% confidence. Real probability: 25.63%, Fake probability: 74.37%. The model detected significant artifacts consistent with AI-generated content, including potential GAN fingerprints and temporal inconsistencies.

TIMELINE OF DETECTION

Frame-Level Anomaly Timeline

FRAME #	TIMESTAMP	VERDICT	FAKE PROB	CONFIDENCE	ANOMALY TYPE
1	00:00:00	DEEPFAKE	74.4%	74.4%	GenD Deepfake

Showing 1 flagged entries. Frames are sorted by temporal order of occurrence. Each flagged frame was independently processed by the GenD spatial classifier.
